## Description

Cable kit for VSAT (RS485 M&C)

## Details

A kit of signal cables used between a L.TEQ ALPHA VSAT terminal and the indoor equipment:

- \* Transmit IF RG214 coaxial cable from N-Type bulkhead panel
- \* Transmit IF RG223 coaxial cable between N-Type bulkhead panel and modulator (1 metre length).
- \* Receive IF RG214 coaxial cable to N-Type bulkhead panel
- \* Receive IF RG223 coaxial cable between N-Type bulkhead panel and demodulator (1 metre length)
- \* Monitor and control cable (using 4 wire RS485 for the monitor and control function).
- \* Rack mounted bulkhead panel
- \* Installation materials

Note:

Specify length of outdoor cables at time of ordering.

Standard lengths are 33, 66 and 100 metres
